

VENTZON

MERCHANT OVERVIEW

The loyalty program your customers will actually use.

No punch cards. No app download required. Just scan, earn, and come back for more — powered by a QR code you print and post.

OVERVIEW

What is Ventzon?

Ventzon is a digital loyalty rewards platform built for local businesses. You replace the paper punch card with a QR code — customers scan it on their phone, earn stamps, and get rewarded automatically. No hardware. No app download needed to check in.

THE PROBLEM WE SOLVE

01

Paper cards don't work

Customers lose them, forget them, or switch shops. There's no way to know who your regulars are or how often they come back.

02

Apps have too much friction

Most loyalty apps require a download, account creation, and setup time. 80% of people won't bother. Ventzon works with just an email address.

03

You have no customer data

Without a system, you don't know your top customers, how often they visit, or how to reach them. Ventzon changes that from day one.

04

Competitors are gaining ground

Chains and franchises run loyalty programs at scale. Ventzon gives local businesses the same tools — at a fraction of the cost.

VALUE PROPOSITION

Why it matters — for you and your customers

FOR YOUR BUSINESS

01

Keep customers coming back

Loyalty members visit 40% more often than one-time customers. Every stamp is a reason to return instead of going somewhere else.

02

Real-time dashboard

See who checked in today, track total loyalty members, and view your most active customers — all from your phone or laptop.

03

Send email campaigns

Message your entire loyalty list at once. Announce specials, double-stamp days, or new arrivals — directly to their inbox.

04

Live from day one

No hardware to order, no staff training, no long setup. Your QR code is ready to print within minutes of signing up.

FOR YOUR CUSTOMERS

01

Nothing to download

Customers scan your QR code, enter their phone or email, and they're in. No app required to earn stamps or track progress.

02

Automatic notifications

They get an email on check-in, when they're one stamp away from a reward, and when they've earned it — ready to redeem.

03

A card that never gets lost

Their stamp count lives in the system. They never have to find a crumpled punch card at the bottom of their bag again.

04

One place for all loyalty cards

Customers can download the Ventzon app to track all their local loyalty programs in one place.

HOW IT WORKS

The experience, from both sides

CUSTOMER EXPERIENCE

- 1

Walks into your store

Sees your Ventzon QR code near the register or counter.
- 2

Scans the QR code

Opens directly in their browser. Enters phone number or email in about 5 seconds. No app needed.
- 3

Earns a stamp

Sees their progress toward the reward. Gets a confirmation email right away.
- 4

Hits the goal — earns the reward

Gets notified "You earned a reward at [your shop]" and shows it at the register to redeem.

MERCHANT EXPERIENCE

- 1

Sign up in 5 minutes

Create your shop, set your reward (e.g. "Free coffee after 8 visits"), and how many stamps equal one reward.
- 2

Print and post your QR code

Your dashboard gives you a print-ready QR card. Tape it near the register — that's the whole setup.
- 3

Watch the dashboard

See real-time check-ins, loyalty members, and analytics from any device. No separate hardware needed.
- 4

Grow repeat business

Run double-stamp days, email your entire loyalty list, and watch customers come back more often.

"With 75 regular customers and an 8-visit reward goal, you're looking at roughly 18 rewards redeemed per month — Ventzon costs just \$25/mo. Most merchants see more than that back in repeat revenue within the first week."

PRICING

Simple, transparent pricing

One plan. No setup fees. No contracts. Cancel anytime.

\$25_{/mo}

Flat monthly subscription — no per-reward fees, no hidden charges

Everything included:

- ✓ Unlimited customers
- ✓ QR code + print card
- ✓ "Almost there" nudge emails
- ✓ Customer analytics
- ✓ Real-time merchant dashboard
- ✓ Automated reward emails
- ✓ Email campaigns to all customers
- ✓ No hardware required

WHAT WE ARE ASKING

A

Sign up now

Go to ventzon.com, create your shop, and activate your subscription. Your QR code is ready to print in under 5 minutes.
